

SPECIFICATIONS

General:

Model: CPA-60 Controlled Power Amplifier
 Manufacturer: Raymar Srl
 Order Code: PROCPA-60

Features:

"D Class" amplifier
 Output Power: 30W RMS
 IR Remote control
 Line OUT connection
 IR Repeater function
 RJ-45 connector port for external control modules
 Gold connectors
 Easy control with any N/O wired push buttons
 Control through IR remote control (opt)
 External keyboard with IR receiver (opt)
 Dual voltage 115V/220V ca
 (through proper selector)
 Anti-corrosion treatment
 Moisture and salt spray resistant
 CE certified and RoHS compliant

Mechanical:

Size: 4,76 in (W) x 4,88 in (D) x 3,3 in (H)
 Weight: 4,3 lb

Electrical:

Power Supply: 110/230 V ~ 50/60 HZ
 Power Requirement: 80W Max at full power output
 Frequency Response: 20Hz-25KHz +/- 3Db
 Bass Control Range +/- 10 db @ 100hz
 Treble Control Range +/- 10 db @ 10khz

A natural evolution of the now renowned CPA-50, the CPA-60 features distinctive technical specifications such as: the selector for the management of the PRE output, either fixed or controlled by the signal processor, the tone control, the regulation of the GAIN Input, an output power of 30W RMS for each channel, RJ 45 plug for a complete expandability (connection to remote control systems: keyboard + remote control) and IR repeater function. High dynamics and a crystal-clear sound characterize the audio quality of the CPA-60 classifying it as the ideal component for sophisticated Multi-Room Systems or just to add power to your audio source.

Elevated expandability

The CPA-60 is supplied with 1 IR receiver and 1 IR emitter which allow the device to perform as a IR repeater. Such function is also ensured using the accessories kit. Some N/O contacts wired to the CPA-60 can be used for the device control by plugging them to standard modules and switches such as BTicino, Vimar, Gewiss and many others.

Applications: Audio broadcasting, multi-room systems, audio amplifier
