PMS-series features two-way separate driver configuration in-wall/in-ceiling speakers to deliver full-range sound with low distortion and high linearity. A special glass fiber+ Nomex® double-layer woofer with Santoprene™ rubber surround allows for large emission area while providing optimal form factor for installations in small spaces. A 25mm titanium dome tweeter with neodymium magnet delivers crystal-clear mid-high frequencies with optimum polar emission angle, to allow for perfect sound reproduction over a large room area, yet ensuring high power handling and great reliability. Power capability up to 260 W, extended frequency response. Specially made to fit external installation.

UV treatment, anti-corrosion treatment, stainless steel screw, paintable plastic surface, moisture and salt spray resistant, steel metal grill.
