PMO-series features two-way High performance marine speaker to deliver sound with low distortion and linearity. A polypropylene cone woofer allows for large emission area while providing optimal form factor for installations in small spaces. A 13mm PEI dome tweeter with powerful neodymium magnet delivers crystal-clear mid-high frequencies with optimum polar emission angle, to allow for perfect sound reproduction over a large room area, yet ensuring high power handling and great reliability. Power capability up to 150W, extended frequency response. Suitable for external installation due to its water and weather resistance features. UV resistant, stainless steel screw and salt-spray resistant.
